FTP Managing Director

NRA-Dagen | 10 Jan 2018 | Stockholm |

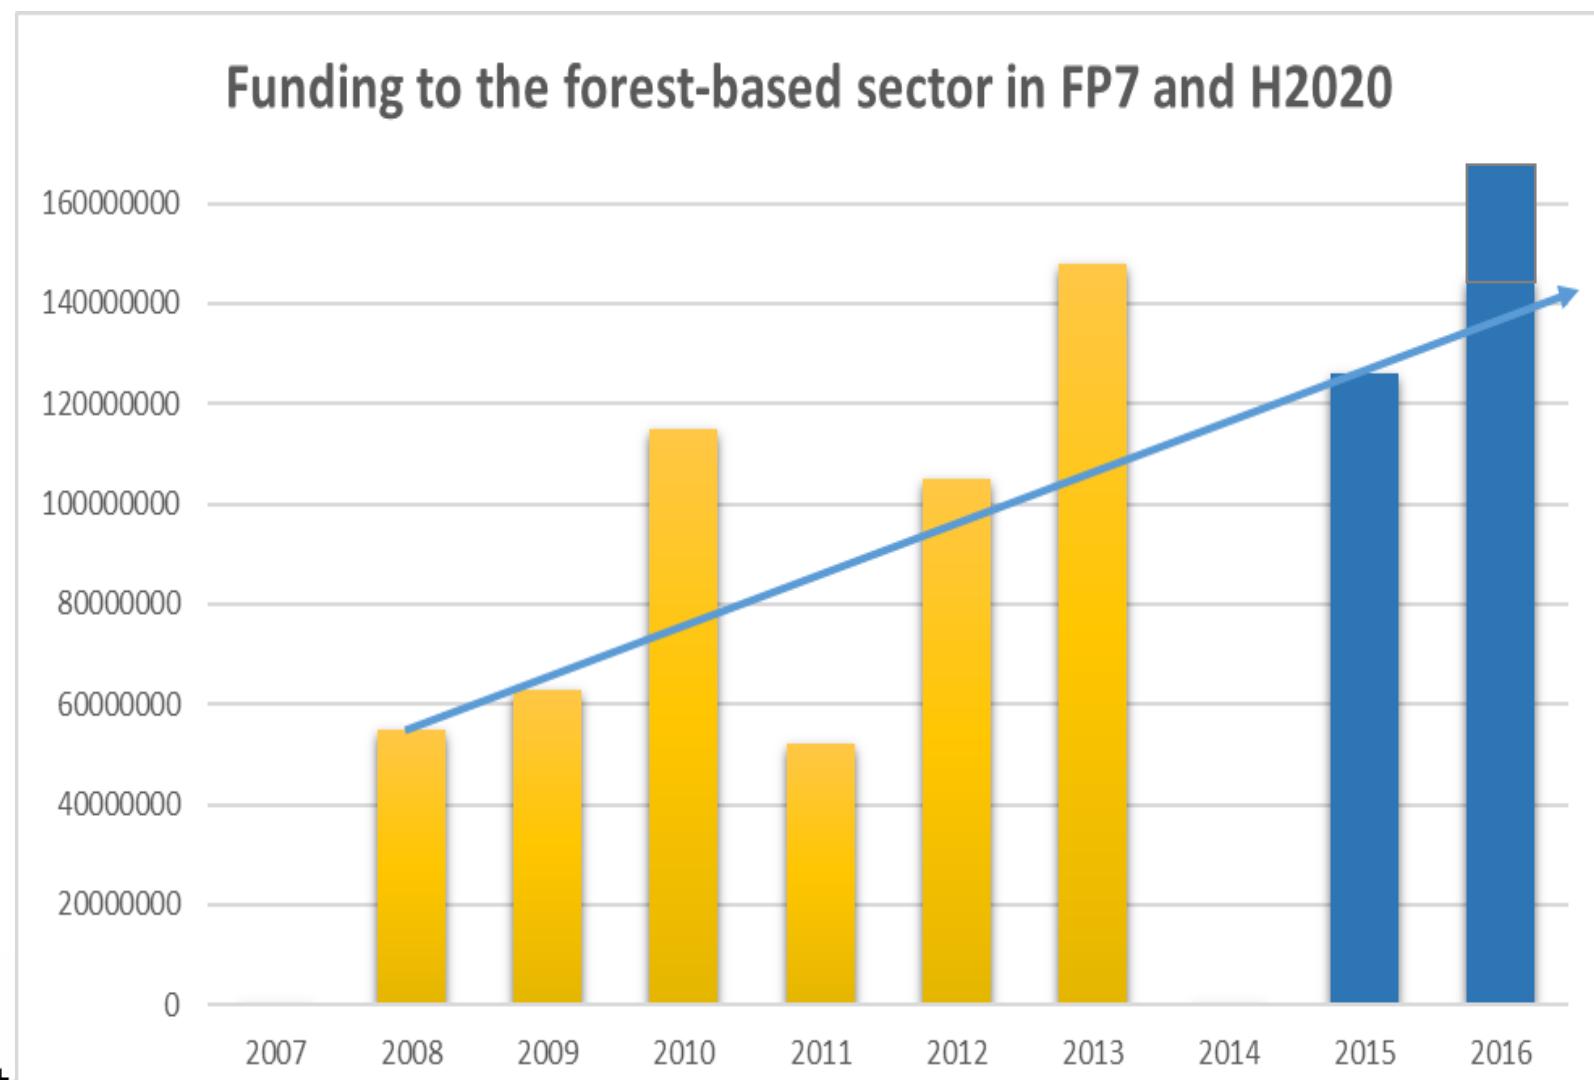

FTP - för alla som tror på innovation och
gränslöst samarbete i skogssektorn

FTP formar EU's forskningsprogram efter skogssektorns behov

Resultatet är en tredubblad EU-finansiering på mindre än 10 år

Supportföretag

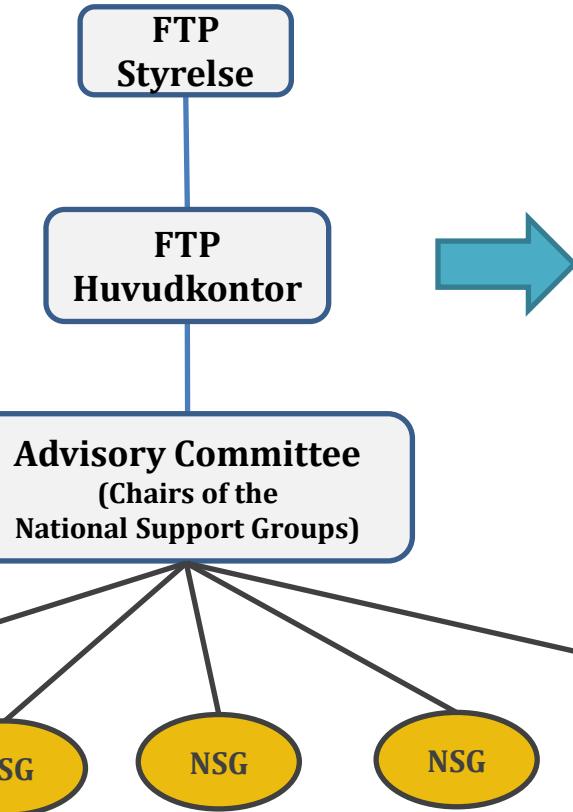

Inspired by life

Paraplyorganisationer

FTP's struktur

25 National Support Groups (NSG)

Nationella branschorganisationer, företag, skogsägare, forskningsråd, forskningsinstitut

European Commission

EU-projekt med svenska partners som startade 2016

#	Projekt	Område	Start	Stop	EU funding	Svenska Partners
1	ALTERFOR	Decision-making for future forest management	Apr-16	Sep-20	3.999.998 €	SLU, Södra
2	BIOSKOH's	2nd Generation BioEthanol	Jun-16	May-21	21.568.194 €	RISE
3	EFFORTE	Precision planning and management forestry	Sep-16	Aug-19	2.230.221 €	SLU, Södra, Sveaskog, Holmen, Skogforsk
4	ERIFORE	Research Infrastructure for Circular Forest Bioeconomy	Jan-16	Jan-18	2.630.950 €	KTH, SP Processum
5	Exilva	Demonstration of large scale production of MFC	May-16	Apr-19	27.433.610 €	KTH
6	GenTree	Management of forest genetic resources in Europe	Mar-16	Feb-20	6.700.000 €	Skogforsk, Uppsala Universitet
7	LIBRE	Lignin based carbon fibres for composites	Jan-16	Oct-20	4.566.560 €	Chalmers
8	NeoCel	Novel processes for sustainable cellulose-based materials	Sep-16	Aug-18	1.934.233 €	RISE, Renewcell, Dömsjö, FOV Fabrics AB
9	OnTrack	Increasing efficiency of future wood supply	Sep-16	Aug-18	1.661.361 €	Skogforsk, Konstholmen
10	PULPaction	Moulded pulp for renewable packaging solutions	Oct-16	Sep-20	8.303.374 €	Rottneros, RISE
11	SuFoRun	Models and decision support tools for integrated forest policy development	Feb-16	Jan-20	1.885.500 €	SLU

FTP's Strategiska Forskningsagenda (SRA) Score card 2006-2016

Snabbare än vi trodde

- Wood-based textiles
- Building with wood – Multi-storey wooden building
- Nanocellulose
- Biorefineries/multi-purpose pulp mills
- Renewable energy solutions

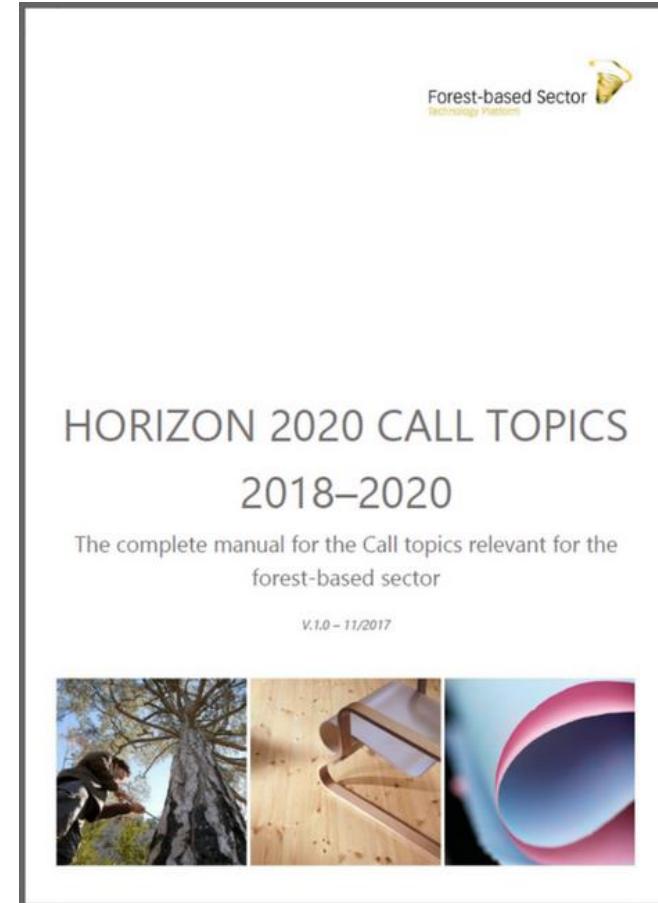

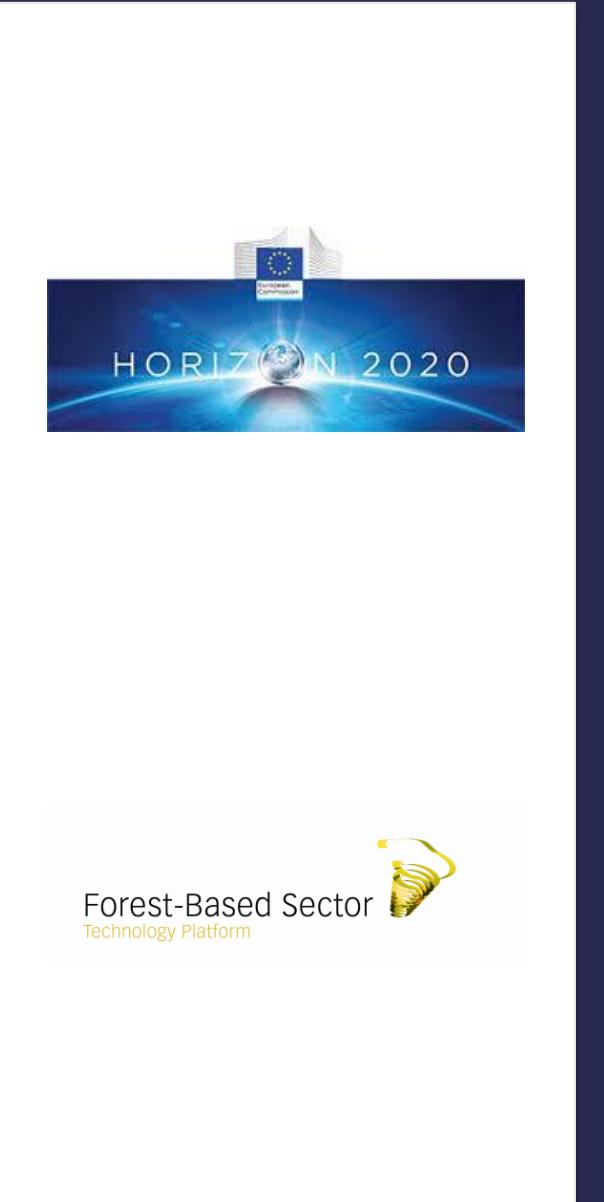

Långsammare än vi trodde

- Wood-supply and logistics – e.g. harvesting machines
- Paper electronics
- Resource efficiency in manufacturing – e.g. paper stratification
- Building with wood – creating a growth market

Om FP9

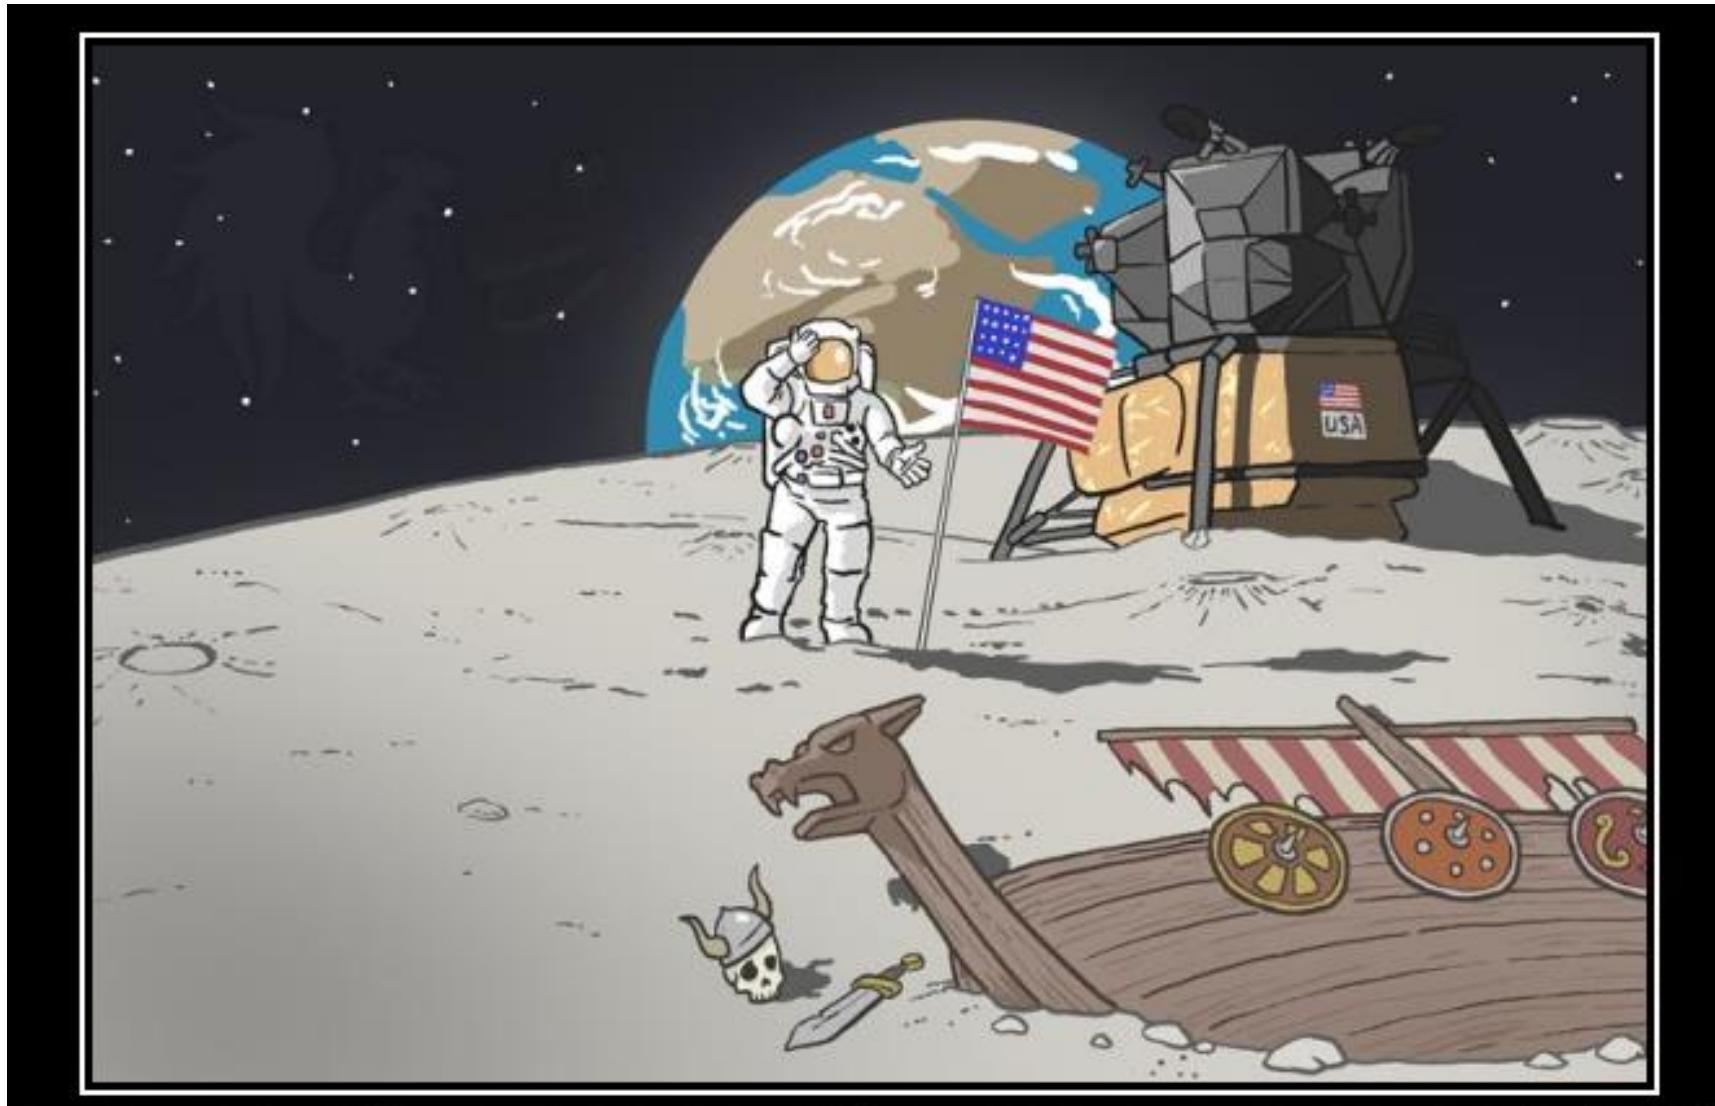

1. Likt Horizon2020 kommer FP9 vara indelat i tre pelare:
 - European Research Council
 - European Innovation Council
 - Thematic/Challenge based Pillar (t.ex. Bioeconomy)
 2. Just nu samlas "storylines" in från Direktoraten
 3. FNs Sustainable Development Goals (SDGs) kommer att beaktas
 4. Snart, i april 2018, kommer huvuddragen av EUs MFF presenteras för diskussion (då ingår budget till FP9)
- FTPs positionspapper om FP9:** <http://www.forestplatform.org/#!/articles/99>

... Angående FP9 "missions"

5. The FP9 **missions** kommer att dra finansiering från alla tre pelare
6. **Missions** kommer att vara tidsbestämda
7. Hittills har bara **missions** från Pascal Lamy rapporten används som exempel
8. Europeiska Kommissionen föreställer sig att EU-medborgarna ska rösta om vilka missions som slutgiltigt får finansiering i FP9 men det är ingen som vet hur det skulle gå till rent praktiskt
9. FET Flagships kan vara modell för **missions**

FET Flagships are expected to run for about 10 years, with a total budget of around 1 billion Euros. They will bring together a large number of research organisations, including academia, large industry and SMEs. This bold investment cannot be carried out alone by the Commission or any single Member State. It requires establishing a close link between related activities at European, national and regional levels and ensuring a mutual reinforcement from the Commission and the Member States of the research activities that contribute to the Flagship.

Vi får inte sluta att påverka vår omvärld!
